## REMEDIAL LEARNING ENGAGEMENT IN THE YEAR 2021-22

Students who need learning assistance receive remedial instruction. We understand that every student is unique and different with their own way of learning. It is our responsibility as teachers to provide an environment that will foster maximum learning. We believe that all students can achieve mastery to learning and the rate at which it occurs may differ. Teachers spend extra time with the students who take a longer time for mastery. Remedial learning classes in the name of "*Catch up hours*" were introduced this year. After the first internal exams, students self-reflected on their performance and opted for "Catch up Hours". Certain hours were earmarked as *catch-up hours*. Teachers sometimes provided remedial support in an online mode after the regular classes.

The following were the intervention strategies followed:

- Breaking the concept into small parts.
- Using mind maps, info graphics to teach the topics
- Providing regular feedback on performance
- Providing tips to harness their potentials
- Increasing met cognitive awareness

The following students appeared for the remedial learning programme in the year 2021-22:
