## About the Conference

Heritage Society, Patna (Bihar) in collaboration with Gulab Bai Yadav Smriti Shiksha Mahavidyalaya, Borawan (Madhya Pradesh) is organizing a one day International Conference on the theme 'Women's Identity: Narratives and Discourses' on 8th March 2022. This conference aims to debunk the popular notion of the existence of a male-oriented monopoly. It will problematize the existing scholarly debates on gender equality and study to provide a global forum for discussion on how women have imparted a significant role in fostering, developing, and preserving the rich tangible, intangible, and natural heritage. The objective of the conference is to bring together a cross-section of educationists, academicians, researchers, scholars, and students from a variety of disciplines such as humanities, social sciences, and liberal arts who share a common interest in gender studies and researches on assessing the diversity and commonality of women's role in transmitting, propagating, and preserving the cultural heritage worldwide.

The creative role of women as heritage custodians is best uttered in the preservation and transmission of intangible cultural heritage. As active bearers of social and cultural traditions, women have long served as nodal points in familial units to bridge the gap between the past and the future. Their role in the intergenerational transmission of momentous cultural identity markers such as code of ethics, value systems, religious beliefs, behavioural patterns, and ancestral traditions is indispensable to acknowledge. They also lead in undertaking the indigenous and community practices such as music, dance, crafts making, weaving, textiles, and culinary making, thereby reclaiming and integrating the past to the present. Their role as guardians of tangible heritage is expressed in the fact that women are central to habitat protection. Their natural tendency of caring and patience are some of the qualities that enable them to prove as great conservators. The conference thus will facilitate an in-depth conversation to ponder upon questions such as how gender brings about a difference in the methodology of preservation? And how women have
