

“Simulated sessions for practicing communication in different situations”

Commonly Mispronounced Words

English is not a phonetic language. Often, a letter does not correspond to only one sound. These are silent letters that are not pronounced in words and these can make English pronunciation more challenging for learners.

For Example: -

- ‘K’ is silent in Knife
- ‘R’ is silent in Colonel
- ‘X’ is silent in Xylem
- ‘H’ is silent in Honor
- ‘K’ is silent in Knowledge
- ‘K’ is silent in Knee
- ‘C’ is silent in Scene
- ‘C’ is silent in Crescent
- ‘N’ is silent in Colum
- ‘G’ is silent in Caught

Unlearning is the key to learning. You will come to know about some commonly mispronounced words by listening to an audio.

Simulated Practice Task

Listen to the audio on 50 commonly mispronounced words. After listening, imagine that you are talking to your friend about what you did on Wednesday. Record an audio of your imaginary talk with your friend. Make use of 10 words from the list of commonly mispronounced words that you learnt in your imaginary talk. Submit the audio file to your pedagogy teachers on or before 27/08/2022.

High fidelity simulation environments provide students with the opportunity to generate, develop and enhance their communication skills and confidence in their own abilities without worrying about compromising patient safety; they also provide students with the chance to practice and correct their mistakes in real time. It has also been clearly shown to improve team behaviors in a wide variety of teaching learning contexts associated with improved team performance in crisis situations.
