## Multilingual Interactions and Inputs

The B.Ed. and M.Ed. students of the institution choose either Hindi or English as the medium of instruction as per the guide lines of the University. The students are not separated in the classes on the basis of medium of instruction. The teachers use English and Hindi languages for classroom teaching. The concepts are explained both in English and Hindi for the better understanding by students. It is ensured that language is not a barrier to learning. The needs of both the English and Hindi medium students are considered while planning for instruction. Reference books are available in both the languages in the college library. The students can do their assignments and practicum in the language they are comfortable with. The question papers in the internal exams and University exams have questions both in English and Hindi language. All efforts are made to ensure that the English and Hindi medium students get adequate support for learning. The bilingual education in the institution promotes a deeper understanding of concepts.
