## Report on "Training Session for "How to write Lesson Plan "

The pedagogy teachers trained the second year B.Ed. students to write lesson plans from 06/06/2022 to 11/06/2022.

A lesson plan serves as a guide to the teacher to determine what the students will learn. how the lesson. will be taught as well as how learning will be evaluated. Lesson plans enable teachers to function more effectively in the classroom by giving a detailed outline that they adhere to during each class. Keeping in view the importance and need of the lesson plan. The teacher educators trained the prospective teachers to write them effectively for each pedagogy.

The teacher educators trained the prospective teachers to formulate of educational objectives, which is the first part of writing a lesson plan. It is essential that the teacher should check the student's entry behavior before teaching the lesson. The teacher educators facilitated the use of tools to test the previous knowledge of the students while writing the lesson plan.

The teacher educators trained the prospective teachers to write both the General Instructional Objectives (GIOs) as well as the Specific Instructional Objectives. (SIOs). They differentiated the terms with the help of action verbs from Blooms Taxonomy.

The aim of the lesson should be stated clearly. The lesson plan should provide situation for both the teacher and the students to participate in the process of teaching and learning. While teaching the preparation of lesson plan, the teacher educators discussed the ways of presenting a lesson. The made the concept instead of the examples given in the book. By this way, the teacher educators trained them to associate and apply the concepts learnt with real life situations.

The resources essential for transacting the concepts are very much essential while writing a lesson plan. The teacher educators familiarized the prospective teachers with offline and online apps with respect to their pedagogy. The steps in the preparation of instructional materials were taught to them. Achieving closer in teaching is done through recapitulation. Teacher educators taught them the techniques of recapitulating a lesson.

The teacher educators trained the prospective teachers to select specific assessment tools for each lesson. They taught them how to select the assessment tool based on the specific instructional objectives targeted for the lesson.
